Whats' new **Talkdelta Prime**?

With all the existing features of Talkdelta Single User we are now introducing few new features with a new face & name as Talkdelta Prime.

V WAP (Volume-Weighted Average Price)

A special type of price average that takes into account price and volume which provides a much more accurate snapshot of price action.

It is an accurate tool on expiry which can give an accurate assumption of closing price after 3:15 PM (Closing time is 3:30 PM)

Using VWAP30 traders can take a position in ATM strike price in the last 5 Minutes

Portfolio	Rate	VWAP	VWAP30	Balance	Delta Neutral
29MICRONS	64.80	0	1	0	0
ASHOKLEY	127.90	126.90	127.25	225	0
AUBANKSE	1136.35	1146.25	1148.25	1575	0
AXISBANK	791.40	789.60	791.65	420	0
BANKNIFTY	7412.00	7412.49	7415.49	1250	0
BEL SEP21	207.15	205.75	207.75	380	0

Comparing historical data, it is always giving an accurate result which is updated after an interval of 1 minute.

Traders are taking advantage of VWAP30 on expiry day to identify OTM options and trade accordingly.

Now it is available in talkdelta. You will get information on VWAP and VWAP30 in a portfolio.

Shows Volume Weighted Average Price (VWAP) which provides you with insight into both the trend and value of a security.

IBT Broadcast Service (Live Rates)

Get live Share price updates with our IBT broadcast service.

With our stock market live broadcast feature you get the most recent pricing of the stocks, and if there has been any change in the pricing of the shares.
